## OUR PROJECT TRUTH TEAMS REACH THOUSANDS IN SUMMER OUTREACHES TO SO. CALIFORNIA AND LAKE TAHOE

Top left: Team leader Don shows and tells the truth to a group of young people at the beach. Top right, our newest team member Donna and team members Alexander and Ed display the truth on a busy intersection in So. Calif. Bottom left and middle, Doug speaks truth with his signage at Lake Tahoe, CA. Bottom right, team member Alexander has a long conversation with a young lady who passed by and stopped to ask questions. Thanks to Ten members of the Galt Bible Church who joined us for this outreach during the Celebrity Golf Tournament.

### **From Bud's Heart:**

Bill O'Reilly at Fox News has a portion of his nightly news and commentary called "Back of the Book." I will begin here with what might fit that description. When I co-founded SOHLNET in 1993 with brothers Murray Lewis and John Ficker I had high hopes and expectations that I (we) might see our nation end this holocaust against the pre-born in my lifetime. And I still do because millions of conscientious Christians, Evangelical and Catholic, are fervently praying for its end. Each night Martha and I pray this prayer repeating it seven times as prompted by Evangelist Lou Engle about ten years ago when he came to our church in Roseville. **"I plead the blood of**

**Jesus over my sins and the sins of our nation. End abortion and bring revival to America."** On the foundation of those and like lifted prayers, hundreds of ministries inspired by prolife giants Joe Scheidler, Greg Cunningham and others, the truth is being told with pictures and print. Thousands of pregnancy resource centers across America provide real help for moms in difficult pregnancy and post-abortive situations. Are our efforts saving babies? No doubt. Together we are changing the hearts and minds of many who moved from "prochoice" to prolife after seeing and hearing from ministries having the courage to show the images and dialogue with those opposing them.

### **ONLY 19 PERCENT?**

Unfortunately Gallup and other polls reflect that only about 19 percent of Americans oppose abortion under "any circumstance." Note: This does not usually apply in the case of saving the life of the mother, an extremely rare circumstance. Sadly, in a nation in which 77 percent of Americans self-identify as being "Christian", only 19 percent find themselves able to agree with the God they profess on this matter.. Is it possible that pastoral leaders in America bear much responsibility for the meager response? I think so and next time I will be gracefully answering one Evangelical pastor who told his congregation that he could not preach about "abortion" as it was a complicated and complex issue. I would like to hear from any of you who have pastors or priests who seriously preach concerning the sanctity of human life and the scriptural reasons for not shedding "innocent blood." Let's commend them. Reach me at [harbud@surewest.net](mailto:harbud@surewest.net).

### **THANKS TO ALL OF YOU WHO GAVE TOWARD OUR NEW 8 PASSENGER VAN**

Thanks to our wonderful donor who pledged 5K for a matching fund challenge and the donations of 6K from many of you who responded, we have a looks almost new, lower mileage 2005 Honda Odyssey. We were unable to find the Ford van we had envisioned, but this will work very well for us. On long trips we can even use video training for our passengers on the drop down TV monitor. It performed wonderfully on its first extended trip to Lake Tahoe last week.
