SANCTITY OF HUMAN LIFE NETWORK, Inc.

Committed Christians Working to End the Abortion Holocaust

From Bud's Heart:

SOHLNET ENTERS 25TH YEAR OF PROLIFE MINISTRY

In May of 1993 I retired from the U.S. NCIS. Previously, in 1992 I purchased a home in the then rural area of Antelope, CA and settled there with our expanding clan. Having already decided that I would commit my remaining years in Christian prolife ministry, I searched out to those of like mind in the Sacramento area. It must have been June or July when I met two of the leading men in the area sharing my passion. Murray Lewis and John Ficker, both of whom had been active participants in the Operation Rescue (OR). We prayed and settled on our name and mission. "We will work to make abortion unthinkable both in the church and the culture and provide help and healing in the name of Jesus Christ." In 1994 we were incorporated as a non-profit educational organization. We hope to have our 25-year celebration sometime this year and you will be invited. Thanks to all of you for helping us during this quarter of a century. Wow!

MINISTRY WITH A WONDERFUL PARTNER

The Project Truth leadership team of Don, John and myself all have wonderful wives supporting us and the ministry. I could brag on them but this time, my Martha. This June Martha and I have been married for 54 wonderful years. Martha is a wonderful and beautiful gentle warrior as a Christian prolife woman as well as being gifted in helping to bring healing to the many who have been damaged and defiled by their abortion experience. She accompanies me and our Project Truth team to the colleges and universities. [Arrested for What?](#)

Martha was among the 66,000 peaceful Christians arrested in America during Operation Rescue (1987-1993). Most of her arrests resulted in fines but for 3 different convictions for trespass she spent 24 days in jail. If you ask Martha she will tell you wonderful stories about her incarcerations and how God used her to share the Gospel and healing ministry to the many hurting women. One of her jail mates was Lenore Mullarkey founder and still Director of the Bishop Gallegos Maternity Home in Sacramento. Most of you have never heard of OR, or have been told that it was a violent movement. Not so. It was a beautiful move of God in our nation. Please watch this moving video and pass it on. (Video not recommended for youth under 12 years of age as there are some disturbing photos of the victims of abortion.)

SPRING PROJECT TRUTH TOUR COMING SOON

Feb 26-27 College of the Sequoias, Visalia, CA.....March 5-6 American River College, Sacramento, CA ...March 12-13 Sierra College, Sacramento, CA...March 19-20 Napa Valley College, Napa Valley, CA.....April 9-10 Diablo College, Walnut Creek, CA...April 16-17 Butte College, Paradise, CA...April 23-24 Sonoma State College, Santa Rosa, CA... Please consider joining us if you are able. It is a quite eye-opening experience to observe our interactions with the students. Please contact Bud harbud@surewest.net if you are able for a brief on our guidelines for all participants. (Don, Hannah and Matt will be in Ireland to join the Irish and international CBR team of abolitionist for the month of April, bringing the truths of the holocaust to that land which will vote to legalize or reject abortion in June of this year. Your donations helped finance this mission trip.

FRANCIS SCHAEFFER: "If we use the word love as our excuse for avoiding confrontation when it is necessary, then we have denied the holiness of God and failed to be faithful to him and his true character. We have denied God himself." ("The Great Evangelical Disaster, p. 69)

SOHLNET'S WITNESS FOR THE UNBORN AT THE MLK WALK FOR LIFE

For the second consecutive year our team was present on the sidewalk as an estimated 20,000 walkers passed by us and our banner during the 2018 Sacramento Walk for the Dream. While encouraging and thanking the walkers we passed out and estimated 1000 tracts and brochures promoting the Gospel and the sanctity of human life. Our very own Joycelyn Golden who was singing hymns as the crowd passed was featured by the Sacramento Bee for the song coverage of their on-line video of the MLK Walk.

Sohlnet team: Left to right. Ed, Donna, Linda, Joycelyn, Randy and Bud. (Not seen is John who took the photo. Banner photo 2017 file). Bottom right, Sac Bee photo, enthusiastic youths walking for the dream.

DO NOT SEND YOUR KIDS OR GRANDKIDS TO CALIFORNIA COLLEGES

Taxpayer-funded abortion drugs to students on campus

State [Senate Bill 320](#), sponsored by Sen. Connie Leyva, a Democrat, would require California public universities and community colleges to provide abortions drugs up to 10 weeks of pregnancy at their student health centers. It also would require the taxpayer-funded schools to cover the cost of the abortions in their student health insurance plans. The pro-abortion mandate would go into effect in 2020.....The measure would expand California's already very liberal abortion laws by incentivizing college students to abort their unborn babies through free, on-campus abortions.

FORMER SOHLNET TEENS FOR LIFE PRESIDENT SAYS

"Not only will this bill destroy the lives of innocent children, but the chemical abortion medication being mandated has a notorious reputation for being very painful and traumatic," said California Family Council CEO **Jonathan Keller**. "These drugs are known for not just causing physical pain to the mother, but psychological anguish that could last a lifetime." Bud's note: The last action on this bill was Jan 11, 2018 when it was amended in the CA Senate. You can call Sen. Leyva at 909- 591-7016 and voice your thoughts about the bill.

WHAT IS THE ABORTION PILL?

It kills babies in the womb. It has also killed the mom's using the procedures. See the link below.
